

Millenium

SJ-30 instant water heater

“ Fast & Safe ”

Red copper heating system gets the water heated in 2 seconds.

Anti-creeping chip, input and output electricity guards built inside.

Particular "anti-scald" technology, no hot water left to prevent scaling.

Dry heating protection, over temperature protection; when water flow rate is lower than the minimum operating volume, the water heater will stop heating to avoid dry burning and damages to the heater.

“ Energy Saving ”

3D heating system with no heat loss, takes less power (300-600W) than other similar products.

Water heated in 2 seconds, Energy saving and infinite water supply.

“ Easy to Install, Adjustable ”

Constant temperature mode and manual temperature adjustment mode, two ways to choose.

Frequency conversion makes it can be installed everywhere.

Enclosed type with external decompression valve.

Specifications

Model		SJ-30			
Product Name		Instant electric water heater			
Power		3.5KW	4.5KW	5.5KW	8.0kW
Voltage		110v/220-240V/380V, 50/60Hz			
Rated Current(A)		15.9	20.4	25	36
Copper Core(mm2)		≥2.5			
Heating Water Pressure		0.02-0.6Mpa			
Air Switch(A)		≥25	≥25	≥32	≥40
Heating Temperature Setting		25°C-55°C			
Inlet/Outlet		G1/2			
Material		Plastic			
Certification		CCC,CE,CB			
Warranty		1 years			
Use Environment		Home, Office, School, Factorie, apartment, Hospital, Hotel, Shop, Dormitorie, Villa;			
Physical	Pcs/Carton	5			
	Product Size(mm)	285*95*245			
	Gifi Box Size(mm)	305*115*265			
	G.W.(KGS)	11.6			
	N.W.(KGS)	10			
Shipment Detail	20GP	2730pcs			
	40GP	5470pcs			
	40HQ	6265pcs
